

## CLASSIC TRUCK

Jenox Classic series batteries are automotive batteries available in capacities from 110 Ah to 225 Ah, designed for standard-equipped vans, trucks, buses and agricultural vehicles. Thanks to their optimized design and the use of plates based on calcium alloy grids with a high tin content, these batteries have excellent performance characteristics. The use of Ca/Ca technology has provided Jenox Classic batteries with low self-discharge and reduced water consumption. By combining favourable operating characteristics with optimal pricing, Jenox Classic series batteries guarantee very good performance in the standard battery segment.

### Features:

- made with Ca/Ca technology
- design that eliminates the possibility of upper short circuits
- resistance-tested interconnections
- pole tips made with "Hot-Rod" technology
- formed under thermostat temperature conditions
- user-friendly handle
- reliable in all weather conditions
- minimized water consumption

Battery code	Capacity [Ah]	Polarity	Starting current EN [A]	Dimensions [mm] length/width/height
R110246KN	110	[- +]	850	349 x 175 x 235
R120246KN	120	[- +]	950	349 x 175 x 235
R125482K	125	[+ -]	800	513 x 189 x 223
R125384K	125	[+ -]	800	514 x 175 x 210
R125385K	125	[- +]	800	514 x 175 x 210
R145482K	145	[+ -]	900	513 x 189 x 223
R170484K	170	[+ -]	950	513 x 223 x 223
R180484V	180	[+ -]	1050	513 x 223 x 223
R200484V	200	[+ -]	1050	513 x 223 x 223
R210486K	210	[+ -]	1250	518 x 276 x 242
R225486K	225	[+ -]	1300	518 x 276 x 242

## Advantages:

- high quality at an affordable price
- reliable starting in all conditions
  - reduced self-discharge effect
- minimal water loss during operation
  - safety of use
